

WHAT'S ON IN ART ?

Our Amazing Art Show

WOW!! We are absolutely amazed, impressed and blown away by the effort that every single student put into completing their Colour Wheel Art piece. The library was transformed into a magical world of colour. Students were buzzing with excitement and exuding proudness showing off their work to parents and special visitors. Prospective parents were captivated by the high standard of the students work. Throughout the night we heard "We cant believe how high the quality is". We could not be prouder of all students from Prep to Grade 6.

Term 2 has started with a bang and students are busy creating new masterpieces. The children have commenced learning about the new topics Elements of Art (P-2) and Principles of Design (3-6).

We are excited to use a variety of mediums (materials) this term and see all the unique pieces the students are yet to create. Be sure to keep an eye out on the Office displays for examples of this wonderful art.

If you haven't seen the library Art Show display, make sure you check it out!!

The 1/2's worked extremely hard to complete their Sunset Silhouettes & My Crazy Hair Day masterpieces.
