

WHAT'S ON IN ART?

Firstly, a massive THANK YOU to everyone that has kindly donated their plastics and other bits and bobs.

The kids have been very busy turning these items into masterpieces.

We would still like to receive **coloured plastic bottle lids** but at this stage do not require anymore donations. Thanks again!

Prep Art

The Preps have well and truly blown me away with the skills they have shown me so far in the Art room. They are polite, focused and so ready to learn every new skill thrown at them. They have been able to use a number of skills such as tracing, stamping, painting, cutting, painting, gluing, colouring in the lines. As well as using a wide variety of mediums such as oil pastel and water colour. They have even been learning about a technique called water colour resist. WOW keep blowing my mind Preps, you all have a enthusiasm for Art that is so inspiring to see.

Not only have the preps made a great start, but all year levels are focused on showing us the ARTIST attributes in the classroom. These are:

- A—Always do your best
- R— Respect one other & the Art room
- T— Take care of all the supplies
- I— Inside voices please
- S— Stay on task
- T— Turn a mistake into a masterpiece

Take 3 For The Sea

Please don't forget about our program we have been talking about in the Art room **Take 3 For The Sea**. . Keep talking and spreading the word.

Whole School - Sustainability

Every student at Wandin North are ambassadors for our oceans and the animals that live in it. Spreading the message to look after our environment alongside **reduce, re-use, recycle** and the extra we have been learning about **re-think** (re-think using single use plastics). By passing on the messages we are learning through conversation, art work (which we have seen many wonderful examples) and every day life practices we can spread the word. **Art can convey powerful messages** to audiences and we are definitely trying to achieve this in Term 1 Art. Hopefully you have had some interesting conversations at home...

Mrs. Bailey and I are inspired by the enthusiasm and understanding that all students have shown. Taking on board the messages and spreading these through the power of Art. **The Art Show** (in conjunction with Open Night) is going to be fabulous, we cannot wait.

Please Note: I haven't attached clear photos of examples of the children's artworks as we didn't want to give the surprise away. Please join us at our Art Show in Term 2 to see all of the children's masterpieces.
