

WHAT'S ON IN GLOBAL CITIZENSHIP ?

Welcome to Global Citizenship! This unit will be running for Terms 3 and 4.

As you are aware we farewelled our LOTE teacher Nari Maryanto at the end of Term 2, as she began her maternity leave.

So far this term, students in Foundation to Grade 2 have discussed what a global citizen looks like and have begun learning about homes in their neighbourhood and around the world. Later in the term students will create a map of them in the world which includes information about the planet, the continents, country, state, city, town, etc.

The Grade 3-6 students have discussed ways that they can make a difference in the world and have begun learning about the Sustainable goals such as No Poverty and Zero Hunger. Later this term, students will be researching a third world country and finding out information such as: the location, education, well-being, human rights, culture, food/water and shelter.

We have had a great start to the Term!

Joanna Gibson and Kaitlin Saynor

Our Junior Years
Students learning
about HOMES

Our Middle and Upper Years Students
learning about Poverty and Homelessness
