

WHAT'S ON IN GLOBAL CITIZENSHIP ?

Wow! What a great start to our Global projects this Term.

Foundation to Grade 2

Students in the younger years have nearly finished their flip books titled 'Me on the Map'. Students have continued working on their geography skills ; learning concepts such as direction and location. Next they are learning more about Australia and water surrounding it. We will be using the book 'Are we there yet?' by Alison Lester to discuss parts of Australia on a class map.

Grades 3 to 6

Students will have completed their PowerPoint on their chosen third world country this week. In two weeks time (after Cup Week) Students will present these in small groups and gain feedback from their peers, as well as their teacher. They are assessed by a rubric, which is a guideline to ensure that they have covered the required areas. Next, students will be exploring different World Organisations. Students in small groups, will create posters that take action on a Global issue, such as: Poverty, Education, Clean Water and Sanitation and Good Health and Well-being.

-Joanna Gibson and Paul Bailey
