

WHAT'S ON IN ART?

TERM 4

We cannot believe there is only two weeks left of school in 2018. We are all frantically trying to finish off our artworks. The children have loved learning about **Indigenous Australian Art** especially the **history, art**

movements and **Indigenous symbols**.

Grade Prep

The Preps have been extremely talented artists this term. Their dot painting artworks are beautiful as they have focussed on;

- Using the right sized tool
- Making sure the tool is vertical
- Applying the right amount of paint
- Consistency with dot sizes

- Keeping the dots inside the lines
- Watching they don't smudge and taking their time!

Grades 1/2

The Grade 1/2's have thoroughly enjoyed learning about Australia's Flora and how plant life has been depicted in Indigenous Artworks for thousands of years. They each chose an Australian plant to analyse then had the tricky task of replicating it out of felt. The end results are brilliant.

Mondurup Bell

Blue Bell

In the coming fortnight the Grade 1/2's will have additional time to complete their wonderful clay necklaces from Term 3.

Grades 3-6

The Grade 3-6 children's Australian Fauna clay sculptures have been challenging!!! The quick drying clay, broken limbs and intricate paint details have made it difficult. I am very proud of the children's perseverance, creativity and pride they are taking with their sculptures. Look out in the school foyer as some will be going on display next week.
