

WHAT'S ON IN ART?

Welcome to Art in 2019

Welcome to an amazing year in Art. We have some wonderful topics and artworks ready to go and I'm sure Wandin North students are going to turn their trash into TREASURE. This term we are focussing on **Sustainability in Art**. It is a very important topic where the children get to be activists and create art out of recycled materials to display in the **Term 2 Art Show**. The children are learning the importance of sustaining our beautiful planet by **Reducing, Reusing and Recycling** and joining the wonderful movement of **Take 3 For The Sea**.

Take 3 For The Sea

Wherever we are, we are connected to the sea. The **Ocean** provides us with the oxygen we breathe and the climate that **sustains** us. We need a healthy ocean for our own **survival**.

Plastic pollution is killing **wildlife**, devastating oceans and threatening the health of our planet. Plastic represents a **disconnection**. It's a material designed to **last forever** that we often only use **once**. Poorly managed plastic leaks into the sea. The ocean is downhill from everywhere.

Through **education** that inspires **participation**, Take 3 are building a **global movement** of people who are **connected** to the planet.

Join the movement today.

#Take3ForTheSea

Take 3 believes in **simple** actions to address complex problems.

Simply, Take **3** pieces of **rubbish** with you when you leave the beach, waterway or.... **anywhere**, and you have made a **difference**.

Check out **Take 3 For The Sea's website and/ or Instagram**

Prep

The Preps have loved investigating an assortment of sea creatures that are most effected by rubbish in our oceans such as turtles, penguins, whales and dolphins. They are practising their skills of cutting, colouring in the lines, tracing and the routines of the Art room.

Grades 1/2

The Grade 1/2's have settled back in to the art room beautifully. Their love for learning about sustainability and wanting to be activists with their artworks is wonderful to see. They are very excited to show off

their artworks in the Term 2 Art Show.

Grades 3-6

The Grade 3-6 children's free choice sea creature
