

WHAT'S ON IN ART ?

Term 3 - Remote Learning

In Term 3 students studied **Art in Literature**. It was wonderful to see students experimenting with a range of supplies at home to paint, draw, collage and create with inspiration from some wonderful picture books.

Since we were unable to make our clay creations at school as planned, many students took up the challenge of creating their own **salt dough clay** creations at home. Check out some of the wonderful work sent in by students during remote and flexible learning!

Term 4 - Welcome Back!

How wonderful it is to have the students back in the Art room! This term we are focussing on exploring with a range of materials that most students would not have had access to at home during remote and flexible learning. Students are loving being able to get creative with lots of messy and hands-on projects.

Prep students have been inspired by Eric Carle to create painted papers and their own caterpillar **collages**. Grade 1 and 2 students have been learning about sea turtles. They each created their own **clay turtle** complete with tissue paper habitat.

Grade 3 and 4 students have created unique **weavings** and warped their own circular loom.

Finally, Grade 5 and 6 students have been challenged to make their own **hanging weaving** complete with tassels and removing their creation from the loom for display.

Students' work will be displayed in their individual portfolios to go home at the end of the term, but here are a few sneak peeks!
