

WHAT'S ON IN ART ?

Term 1 - Welcome Back!

This year, students began their adventures in the Art room with a collaborative project. Every student and staff member coloured a feather to contribute to our two kookaburras. Each student came up with a unique design using any colours or patterns they like.

It was wonderful to see the wide range of amazing designs from our Prep students right through to Grade 6. Throughout the week, students were able to watch the collaborative process as the kookaburras were created in the Art room.

Kookaburras are intelligent birds who often work together as a family, the same way our students work together! They symbolise laughter, happiness, community, optimism, team work, unity and healing. What a perfect animal to symbolise our school, our community and our journey forward from Covid-19.

Our kookaburras have been affectionately named Keira and baby Kevin. They were inspired by our school logo and will proudly adorn the wall opposite the First Aid room for our students and visitors to enjoy over the course of the year.

Well done on a fantastic effort everyone!

Art Club

This year, our Art Captains will be running regular Art Club sessions. These will run on Tuesdays or Wednesdays. Each year level will have the option to participate over the course of the year, and specific grades will be allocated each week.

This ensures everyone has a fair opportunity to participate and also makes sure that we can manage numbers of participants. So far we have had Grade 3/4 students creating funny animal drawings.

Jeanne and Maison have worked incredibly hard to design and display posters around the school, plan activities, create examples and mentor students during the sessions. It has been wonderful to see the girls take on this challenge and thrive. Thank you to all students who have attended so far. Everyone has been very supportive of our captains and shown respect during the sessions.

Jeanne, Maison and I look forward to many more fun Art Club sessions over the year!
