Hello everyone and Welcome to the first issue of TheirCare newsletter. Welcome to all the new prep children/ parents this year and Welcome everyone else back to another year, it was so lovely to see you bright shining faces after last year.

At the start of the term, we made totem poles. One of our lovely families donated the poles. The children loved creating their own designs. They looked amazing. Over the past few weeks, we have been improving our garden. There was no one here over the holidays and some plants didn't make it. We have planted some new plants in the garden behind our room. When you are walking past go and have a look; they smell lovely. We got some new features for our gumboot wall.

In the next few days, we will be putting together a fairy and dinosaur garden for the children to play in. We had made some trees, rivers, volcanoes, and bushes to go in the garden. The garden will look amazing when its all finished. Amy had some seeds at home, we planted them into some small pot near our door to watch them grow and once grown we will plant in the bigger garden. We have made hairy harry's. The children will be so proud once the grass grows out the top and they can cut into different hair styles.

We have been decorating our room with pictures we have painted. We also made a healthy eating pyramid.

What's next: We will be doing some amazing Easter activities in the upcoming weeks. The Easter bunny will be here soon!

If there is anything you need or to talk about come and see me. Would be lovely to see you!

Thank you so much & see you next time, Amy (TheirCare Coordinator)

Community Project:

This term for our community project, we will be asking people to donate old blankets, sheets, dog treats and soft toys for the dogs at the RSPCA. The children will learn and talk about dogs & cats; how we can help them.

Stars of the month!

Addison- creating a play and including everyone.

Piper- painting amazing pictures.
