

# WHAT'S ON IN ART

## Term 3 - August/September

How is it almost the end of Term 3? We are flying through this year and running out of time to finish our masterpieces for this term. Our 'Prep-2' students are loving the ART IN LITERATURE unit and have completed their work on Alison Lester and have begun working on Nick Bland. Our '3-4 students' have learnt another collage technique- Food collage and our '5-6 students' are experimenting with 'voice overs' on the Stop Motion Studio App.

### Grade P-2 Alison Lester

After reading 'Magic Beach' by Allison Lester, our students began an epic art project of making an underwater scene using the technique 'oil pastel/water resist'. Once they completed their underwater scene, they began working on a seahorse. They used watercolour paints, collage AND 'rip and stick' to make an incredible colourful seahorse to add into their ocean scene.

Aren't they sensational?

### Grade 3-4 Food Collage

We have been using the mentor text 'Playing With Collage' by Jeannie Baker to make 'food collages' to illustrate stories written by our Grade 3-4 students. It has been incredibly messy but VERY FUN. We have used lentils, split peas, barley, rice, quinoa, pasta and a range of seeds!

### Grade 5-6 Stop Motion Animation

The 5-6 students 'Stop Motion' animations are well underway. They have been very time consuming and at times, frustrating to make, because each 'frame' needs to be set up perfectly. The students can't wait to showcase their videos at the end of term.

### WANTED- FOUND AND FALLEN ITEMS

The last collage technique our 3-4 students will be learning about is 'Found and Fallen'. If students could please collect leaves, twigs, bark, tanbark, gravel and pebbles etc. that would be amazing!
